### **DETAILED ACTION**

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 09, 2002 has been entered.

#### ***Response to Amendment***

2. Claims 2 and 18 have been cancelled and claims 1, 3, 17 and 19 have been amended as requested in the amendment of Paper No. 17, filed on September 09, 2002. Claims 1, 3-10, 17 and 19-25 are pending in the instant application.

3. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1646

5. Claims 1 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 17 are vague and indefinite for recitation "under conditions such that said second brain tissue sample is evaluated for anatomical changes consistent with a diagnosis of multiple sclerosis". It is not clear, first, what is encompassed by the "conditions" for comparing the degree of binding. Second, it is confusing why the second brain sample, which comes from a human free from the pathological manifestations of a demyelinating disease (claims 1 and 17, part a)), has to be evaluated for anatomical changes consistent with a diagnosis of multiple sclerosis. Clarification is required.

Claims 3-10 and 19-25 are indefinite for being dependent from indefinite claims.

### ***Double Patenting***

6. Applicant is advised that should claim 7 be found allowable, claim 20 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Conclusion***

7. No claim is allowed.
